**Answer: B**

Explanation:

[http://www.encryptionanddecryption.com/algorithms/asymmetric\\_algorithms.html](http://www.encryptionanddecryption.com/algorithms/asymmetric_algorithms.html)

**NEW QUESTION: 2**

What should an administrator do after adding a new Helm repository to IBM Cloud Private?

- A. Update out of date Helm Charts in the Catalog

- B. Remove old charts from the IBM Cloud Private Catalog
- C. Resync the repositories
- D. Re-install Tiller on the cluster

**Answer: B**

**NEW QUESTION: 3**

A penetration testing is preparing for a client engagement in which the tester must provide data that proves and validates the scanning tools' results. Which of the following is the best method for collecting this information?

- A. Set up the scanning system's firewall to permit and log all outbound connections
- B. Enable debug level logging on the scanning system and all scanning tools used.
- C. Configure network flow data logging on all scanning system
- D. Use a protocol analyzer to log all pertinent network traffic

**Answer: A**

**NEW QUESTION: 4**

You are the project manager of the NGQQ Project for your company. To help you communicate project status to your stakeholders, you are going to create a stakeholder register. All of the following information should be included in the stakeholder register except for which one?

- A. Identification information for each stakeholder
- B. Stakeholder classification of their role in the project
- C. Assessment information of the stakeholders' major requirements, expectations, and potential influence
- D. Stakeholder management strategy

**Answer: D**

Explanation:

Explanation/Reference:

Explanation:

The stakeholder management strategy is generally not included in the stakeholder registry because it may contain sensitive information that should not be shared with project team members or certain other individuals that could see the stakeholder register. The stakeholder register is a project management document that contains a list of the stakeholders associated with the project. It assesses how they are involved in the project and identifies what role they play in the organization. The information in this document can be very perceptive and is meant for limited exchange only. It also contains relevant information about the stakeholders, such as their requirements, expectations, and influence on the project.

Incorrect Answers:

B, C, D: Stakeholder identification, Assessment information, and Stakeholder classification should be included in the stakeholder register.
