CISSP-KR exam Verified Answers Researched by Industry Experts and almost 100% correct, CISSP-KR Verified Answers, As most certificate are common in most countries our customers are all over the world, and our CISSP-KR test braindumps are very popular in many countries since they are produced.

## NEW QUESTION: 2

### HOTSPOT

You are developing a SQL Server Integration Services (SSIS) package to implement an incremental data load strategy. The package reads rows from a source system and compares them to rows in a destination system. New rows will be inserted and changed rows will be updated.

You have used a Lookup transformation and a Conditional Split transformation. The Lookup transformation joins the source and destination table on the business key, and includes all columns from the destination table in the data flow output. The Conditional Split transformation inspects the destination columns and directs data flow to either insert new records or update existing records.

You need to configure the Lookup transformation to ensure that all records flow to the Conditional Split transformation, regardless of whether the rows match an existing row in the destination table.

Which setting should you select? (To answer, select the appropriate option in the answer area.)

### Answer:

Explanation:

## NEW QUESTION: 3

CPI = 0.7

1.2

A.

B.

C.

D.

Answer: B
