- C. telephone voice menus to reduce the load on human resources
- D. a chatbot that provides users with the ability to find answers on a website by themselves

Answer: C,D

Explanation:

Explanation

B: A bot is an automated software program designed to perform a particular task. Think of it as a robot without a body.

C: Automated customer interaction is essential to a business of any size. In fact, 61% of consumers prefer to communicate via speech, and most of them prefer self-service. Because customer satisfaction is a priority for all businesses, self-service is a critical facet of any customer-facing communications strategy.
