An increasing number of people have become aware of that it is very important for us to gain the C1000-119 exam questions in a short time.

NEW QUESTION: 1

What is the valid range assigned to a client during a TCP connection?

- A. 20 - 25
- B. 443 - 1000
- C. 40000 - 65535
- D. 1023 - 2024

Answer: C

NEW QUESTION: 2

Universal Containers (UC) has a multi-level master-detail relationship for opportunities, a custom opportunity line item object, and a custom discount request. UC has opportunity as master and custom line item object as detail in master-detail relationship. UC also has a custom line item object as master and a custom discount request object as detail in another master-detail relationship. UC has a requirement to show all sums of discounts across line items at an opportunity level.

What is the recommended solution to address these requirements?

- A. Roll-up discount request amount at the line-item-level and line-item-level summary discount at the opportunity level.
- B. Update the master-detail relationships to lookup relationships in order to allow the discount amount to roll up.
- C. Use roll-up for the line-item-level summary and a trigger for the opportunity amount summary, as only one level roll-up is allowed.
- D. Remove the master-detail relationships and rely completely on workflow/triggers to summarize the discount amount.

Answer: A

NEW QUESTION: 3

Select the label which best defines the periods of decline outlined in the situations presented below.

Answer:

Explanation:
