NEW QUESTION: 3

Which of the following would BEST ensure continuity of a wide area network (WAN) across the organization?

- A. A repair contract with a service provider
- B. Completing full system backup daily
- C. A duplicate machine alongside each server
- D. Built-in alternative routing

Answer: D

Explanation:

Explanation/Reference:

Explanation: Alternative routing would ensure the network would continue if a server is lost or if a link is severed as message rerouting could be automatic. System backup will not afford immediate protection.

The repair contract is not as effective as per a nentalte (native routing). Standby servers will not provide continuity if a link is severed.
