NEW QUESTION: 1

Hotspot Question

You plan to deploy five virtual machines to a virtual network subnet. Each virtual machine will have a public IP address and a private IP address.

Each virtual machine requires the same inbound and outbound security rules.

What is the minimum number of network interfaces and network security groups that you require?

To answer, select the appropriate options in the answer area.

NOTE: Each correct selection is worth one point.

Answer:

Explanation:

Explanation:

Box 1: 5

A NIC can only be attached to a single VM, thus 5 are necessary.

Box 2: 1

A NSG can be assigned to zero or more NICs or Subnets; since the rules need to be the same, only one NSG rule set is needed, which will be applied to each NIC.

NEW QUESTION: 2
