Explanation:

#### **NEW QUESTION: 2**

During a prioritization meeting, a business analyst (BA)

mentioned that the access management system requirements are not stable. The project manager and a team lead proposed removing the requirements from discussion. A domain subject matter expert (SME) insisted on making that requirement a high priority, because it is really important from their point of view.

What should the BA do?

- A. Set the requirements at a high priority to adhere to the SME's point of view
- B. Make the requirement a lower priority to minimize unanticipated rework and wasted effort
- C. Remove the requirement from the project
- D. Leave priority unfilled for these requirements

**Answer: D**

**NEW QUESTION: 3**

ISBLANK, ISEMPTY, ISNULL, and BLANKVALUE are all methods that can be used to check for null values in a string. Which of the following is the correct syntax for the ISBLANK method?

- A. ISBLANK(*string*)
- B. ISBLANK(*string*, *defaultValue*)
- C. ISBLANK(*string*, *defaultValue*, *length*)
- D. ISNULL(*string*, *defaultValue*)

**Answer: B**

**NEW QUESTION: 4**

You are developing an SMS-based testing solution. The solution sends users a question by using SMS. Early responders may qualify for prizes.

Users must respond with an answer choice within 90 seconds. You must be able to track how long it takes each user to respond. You create a durable Azure Function named SendSmsQuizQuestion that uses Twilio to send messages.

You need to write the code for MessageQuiz.

How should you complete the code? To answer, select the appropriate options in the answer area.

NOTE: Each correct selection is worth one point.

**Answer:**

Explanation:

Explanation

Box 1: DateTime expiration = context.CurrentUtcDateTime.AddSeconds(90); The user has 90 seconds to respond with the code they received in the SMS message.

Box 2: var timeoutTask = context.CreateTimer(expiration, ctx.Token);

Create a timer.

```
Box 3: if(!timeoutTask.IsCompleted)
```

All pending timers must be complete or canceled before the function exits.
